BLOCKWORK & MASONRY

Walls built level, plumb and square.

We build blockwork for basements, boundary and retaining walls, pits and partitions, in solid and hollow concrete blocks. Courses are set out from the drawings, kept level and plumb, and finished ready for plaster and waterproofing.

FROM OUR VILLA PROJECTS IN DUBAI

Pit walls
Laying blocks for a pit, corners kept square.

WHAT WE COVER

- Basement and dead-shutter walls
- Boundary and garden walls
- Lift and sump pit walls
- Internal partitions and shafts
- Lintels and openings
- Plaster-ready finish

HOW WE WORK

01 Set out
Wall lines and openings marked from the drawings.

02 Build
Blocks laid on full mortar beds, joints filled.

03 Check
Level, plumb and line checked course by course.

04 Finish
Joints struck and walls cleaned for the next trade.

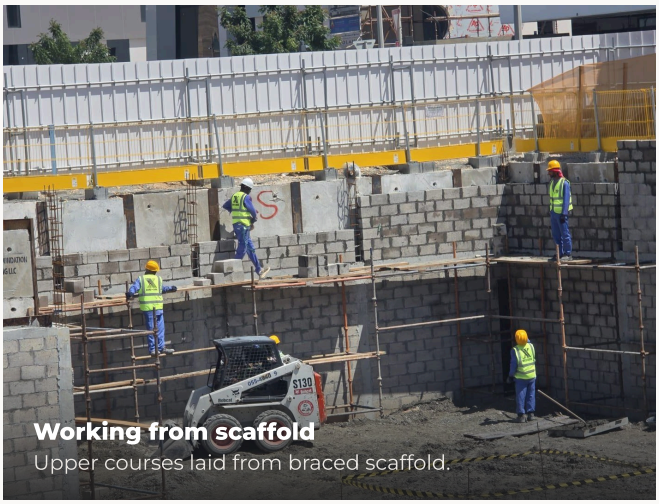

Dead-shutter walls
Blockwork built against the basement shoring.

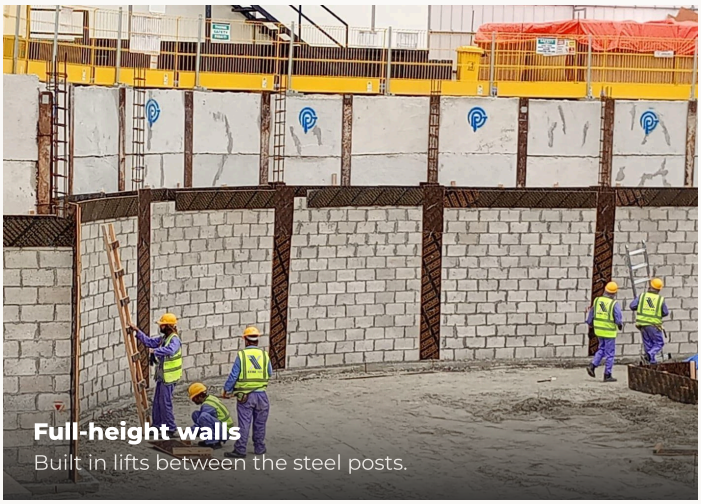

Setting out
Levels checked before the next lift.

Basement perimeter
Blockwork rising around the basement.

Working from scaffold
Upper courses laid from braced scaffold.

Full-height walls
Built in lifts between the steel posts.

BLOCKWORK & MASONRY

Course by course.

Level, plumb and square, from the first block to the last.

Curved wall
Blockwork following the curve of the basement.

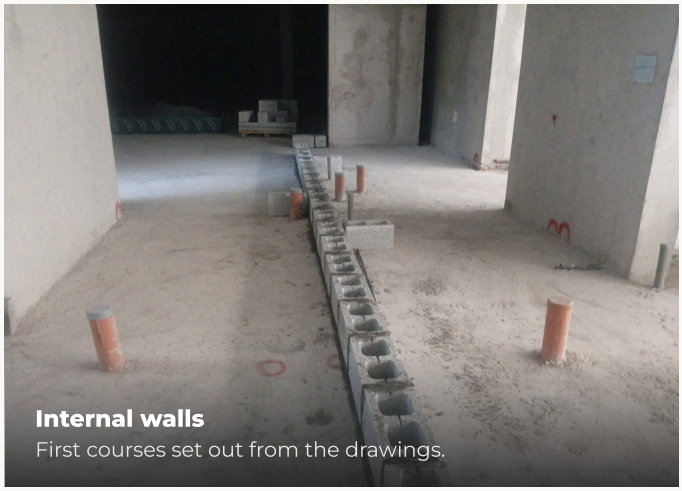

Pits and walls
Pit walls built square on the basement floor.

Pit corners
Corners kept square and level.

Deep pit
Courses straight down the full depth.

Internal walls
First courses set out from the drawings.

IN DETAIL

Set out before the first course

Blocks are stored on pallets and covered, and every wall is set out with lines and levels before laying starts.

Walls in lifts
Courses built up between the posts.

Against the shoring
Built tight to the basement wall.

Pit walls
Pits built square, corners kept true.

Pit walls
Pits built square, corners kept true.

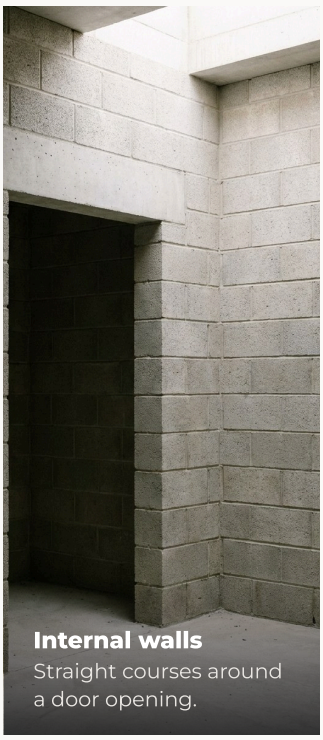

Internal walls
Partitions set out from the drawings.

Internal walls
Partitions set out from the drawings.

Internal walls
Partitions set out from the drawings.

Internal walls
Straight courses around a door opening.

Pit walls
Pits built square, corners kept true.

Pit walls
Pits built square, corners kept true.

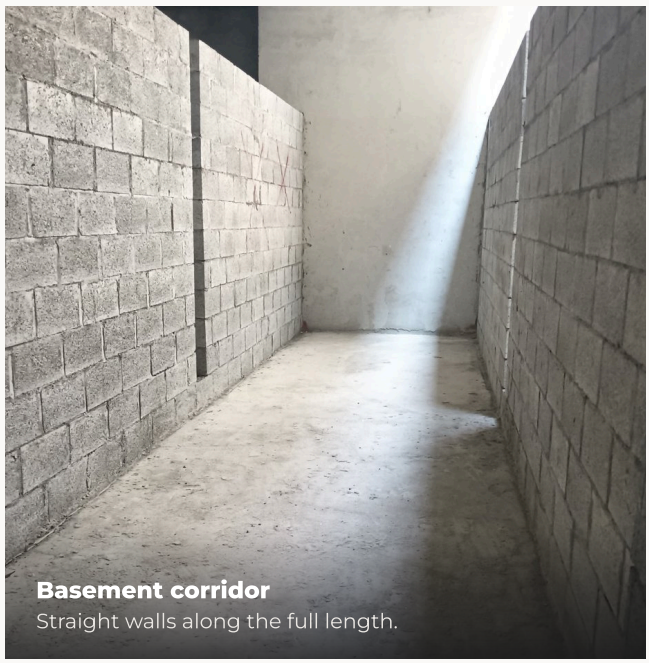

Internal walls
Partitions set out from the drawings.

Lined pit
Walls rendered and ready for waterproofing.

Basement rooms
Walls built level and plumb.

Basement corridor
Straight walls along the full length.

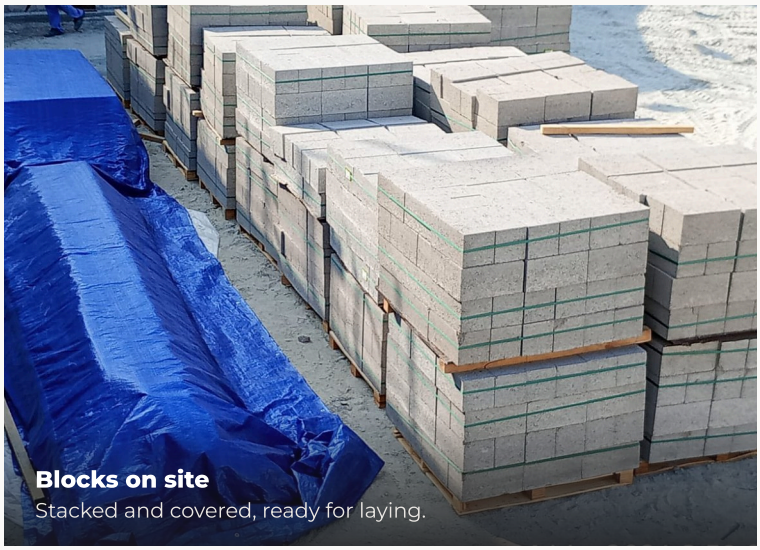

Blocks on site
Stacked and covered close to the work.

Straight, even courses
Level walls between the shoring posts.

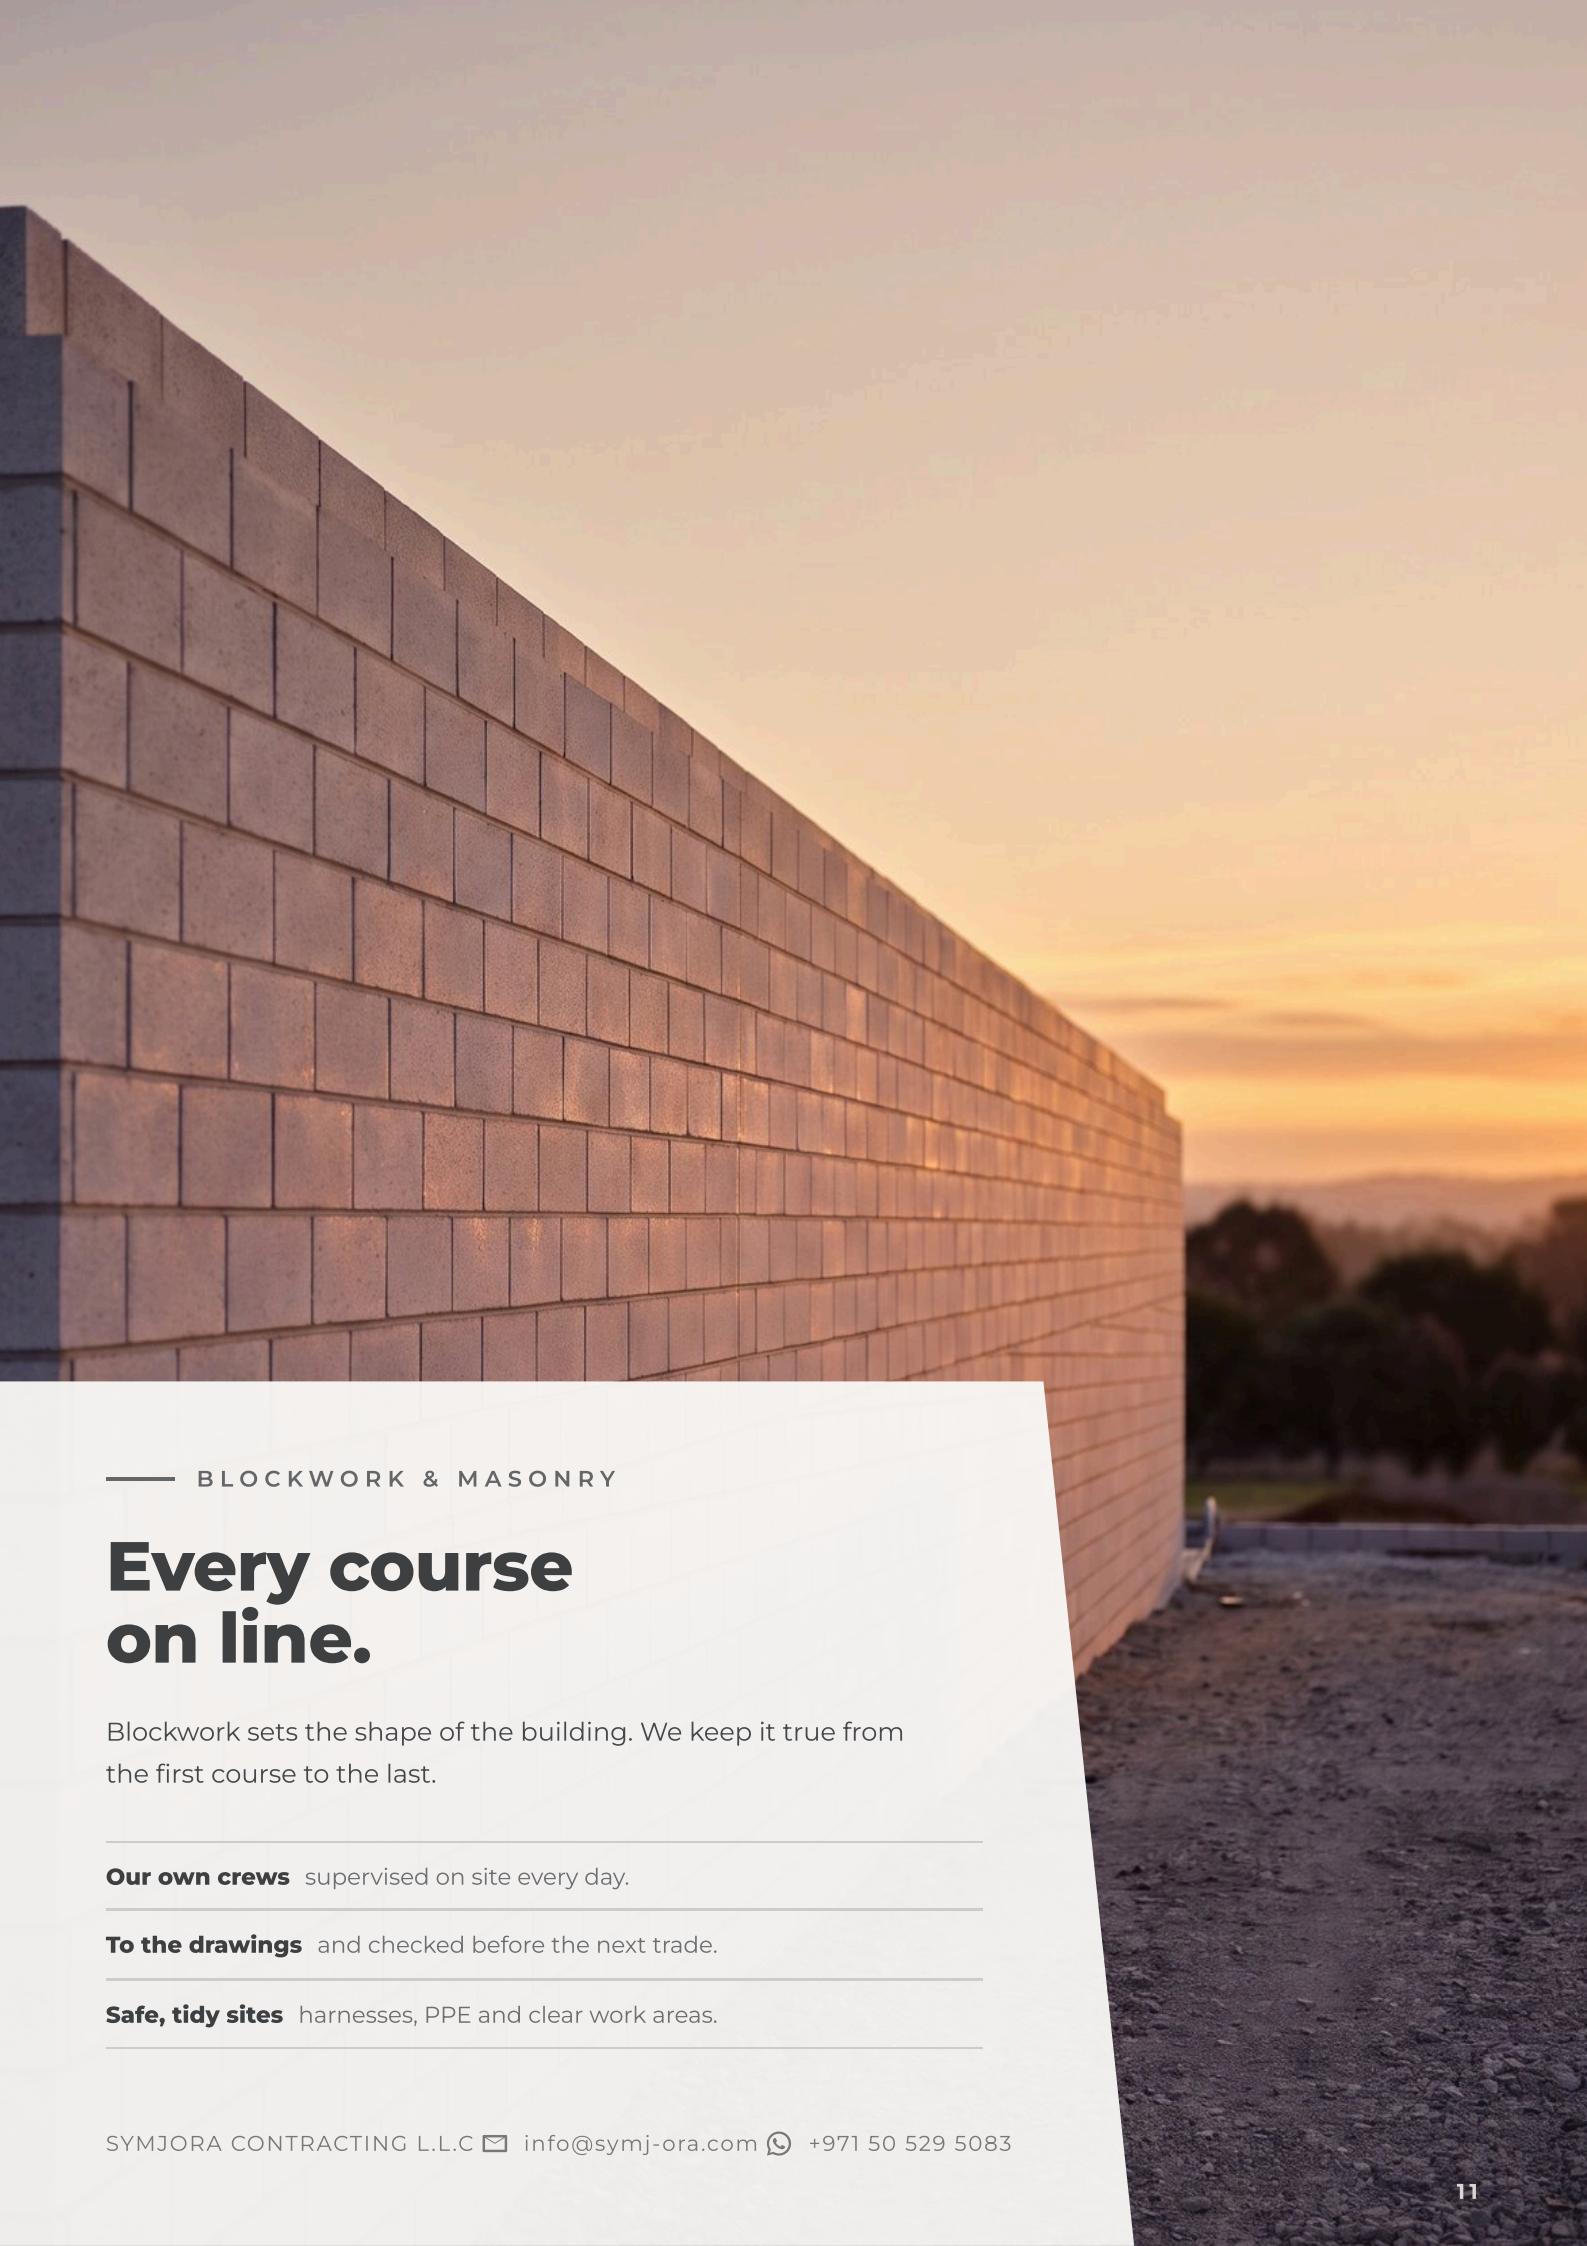

Pit walls complete
Pits built square and ready for waterproofing.

Blocks on site
Stacked and covered, ready for laying.

WHAT WE CHECK ON EVERY WALL

- ✓ Level courses, even joints
- ✓ Plumb faces and square corners
- ✓ Openings in place and to size
- ✓ Full mortar beds, filled joints
- ✓ Lintels and ties where drawn
- ✓ Clean, ready for plaster

BLOCKWORK & MASONRY

Every course on line.

Blockwork sets the shape of the building. We keep it true from the first course to the last.

Our own crews supervised on site every day.

To the drawings and checked before the next trade.

Safe, tidy sites harnesses, PPE and clear work areas.
